

ECO CERTIFICATE GRÜNER PUNKT

By participating in our dual system
for recycling of sales packages, the company

Kaufmann GmbH
6811 Göfis

in 2018 contributed towards saving:

	7,132 kg CO ₂ equivalents
	2,639 kg crude oil equivalents
	24 kg phosphate equivalents
	978,832 MJ primary energy
	54 kg sulfur dioxide equivalents

The CO₂ saved corresponds to the amount produced if 194 passengers would take a round trip on the train from Cologne to Berlin (calculated through ecopassenger.org).

Recycling reduces greenhouse gases and as such is an important contribution towards climate protection. Der Grüne Punkt publishes its annual balance of environmental performance since 2001 which confirms this positive effect on the environment. The environmental performance balance is regularly reviewed by the experts from IFEU in Heidelberg.

Haucke Schlüter
Spokesman of the Board
